

AMENDMENTS
TO RATE BILL.Allison Compromise Presented
in the Senate.Conferences Have Resulted in
Senators Agreeing.Circuit Courts Have Jurisdiction
in Law Suits.

(BY THE ASSOCIATED PRESS.—P.M.)
WASHINGTON, May 1.—Senator Allison today presented the Allison amendments to the Railroad Rate Bill. They will be printed and will be over until they are reached in their regular order.

Conferences in the Senate yesterday which resulted in a positive agreement to accept the Allison amendments.

The Allison amendments to the Railroad Rate Bill were ratified today by additional conferences of Senate leaders, representing all Republican factions. That there could be no further misunderstanding, this date for a basis of agreement was prepared and exchanged.

The Allison amendment is to comprise six propositions:

"First. The words 'fairly remunerative' in section 4 of the bill is to be stricken out.

"Second. The words in its judgment, in the same section, are to be retained.

"Third. Jurisdiction is vested in the United States Circuit Courts to hear and determine suits against the commission.

"Fourth. No preliminary injunction or interlocutory order is to be granted without a hearing and notice.

"Fifth. The application for preliminary injunction or interlocutory decree is to be heard by three judges.

"Sixth. A direct appeal from the interlocutory order or decree is to lie only in the Supreme Court of the United States.

"REASONABLE RATES."

Under the first and second clauses of the agreement, the rate-making section of the bill will authorize the Interstate Commerce Commission when, after full hearing, it shall be of the opinion that rates are unjust or unreasonable or unduly preferential or prejudicial, to determine and prescribe the rates in its judgment, to be just and reasonable rates or rates, charge or charges to be therefor, observed in such cases as the maximum to be charged.

"ALLISON COMPROMISE."

The third clause is the original Allison compromise amendment, and simply confers jurisdiction on the circuit courts to hear and determine suits against the commission.

The fourth, fifth and sixth clauses place certain restrictions upon the granting of injunctions and orders direct to the Supreme Court.

UPSETS FORMER AGREEMENT.

Notice was served by Senator Allison on the conservative forces, headed by Senators Aldrich, Spooner, Crane, Lodge, Knox, Foraker and others, that he would not offer any amendment that was not satisfactory to his colleagues.

Senator Dilliver, and to Senator Culm, and Clapp, who sought against amendments to the House bill when it was pending before the Committee on Interstate Commerce. The stand taken by the senior Iowa Senator upset the former alliance agreement. He made no secret of his belief that advantage had been taken of his illness to attempt to force through an amendment which was offered solely as a basis for compromise, and not as a final agreement on the controversial question.

FINAL NEGOTIATIONS.

When it was made clear that Senator Allison did not believe the amendment gave his name would reach all of the questions, negotiations were resumed, and the final agreement on all of the points involved was reached at the conference last night, which was attended by Senators Aldrich, Carter, Knox, Culm, Crane, Fulton, Hopkins and Spooner.

The questions which needed final adjustment at the conference were those relating to retention of the bill retaining the words "in its judgment" and striking out the words "fairly remunerative," and that relating to the number of judges authorized to hear a hearing before two judges. Later it was decided to apply the expedient of passing to facilitate action under the Sherman Anti-trust Act to hearings on applications for such preliminary decrees or orders.

The action of the conference was agreed to today, by Senate leaders representing all of the dissenting factions.

END OF SIM SIMMS.

JACKSON (Miss.) May 1.—Sim Simms, a negro, who, Sunday morning, killed the woman upon which Constable Lamar Hendricks, who was attempting

to arrest him, was riding, was taken from the authorities Monday night, and hanged near the public road, about six miles west of Jackson. The mob, after hanging Simms, quickly dispersed. Hendricks, in whose charge the negro was at the time of the lynching, was en route with his prisoner to Jackson.

MINERS RATIFY THE EXTENSION.

UNANIMOUS ACTION OF DELEGATES AT SCRANTON.

Notices Posted by the Coal Companies Announcing Resumption of Work Next Monday—Chicago Looks for Long and Bitter Building Trades Strike.

(BY THE ASSOCIATED PRESS.—P.M.)
WASHINGTON, May 1.—The convention of anthracite miners reassembled here today, and ratified the action taken by its sub-committee in conference with the operators' committee in New York yesterday, declaring operative the award of the Coal Strike Commission of 1905 for a further period of three years, ending March 31, 1908.

Nearly all the delegates who were at the convention last week were present. The report of the committee's action was adopted unanimously. This morning notices were posted by the coal companies announcing the resumption of work next Monday.

BUILDING TRADES STRIKE. CHICAGO EXPECTING ONE.

CHICAGO, May 1.—A long and bitter strike involving probably all of the building trades unions seems inevitable and pending the industrial war of the attitude shown last night by the structural iron workers at their special meeting to consider the arbitration proposal of the contractors' union, voted to stand firmly for their full demands.

Frank M. Ryan, international president of the Iron Workers' Union, came from St. Louis to attend the meeting and to warn the iron workers that the organization is involved in a dozen other strikes throughout the country. He talked for two hours before the strikers, but at the end of the meeting was found to address the sentiment was too strong against peace.

The situation is extremely serious, and has many of the earmarks of another great conflict in the building industry like that of 1905, he said. The iron workers are determined to have \$5 a day. They will not accept a compromise.

A determination was shown by the contractors who met at the Chamber of Commerce.

It developed that the American Bridge Company, backed by the United States Steel Corporation, has entered the fight.

Employers began active preparations to conduct a fight against the Iron Molders' Union which has decreed a strike against the large foundries. A national convention of foundrymen will be held here next Saturday.

The convention adopted resolutions condemning the State constabulary and providing for the mine workers as an organization taking an active part in politics in the nomination and support of legislative candidates.

CANADA'S CONTRIBUTION.

Should Be Sent to Aid Afflicted in San Francisco or to Canadians Who Must Be in Need.

(BY THE ASSOCIATED PRESS.—P.M.)
OTTAWA, May 1.—In the House, P. L. Borden and J. O. Carter, of Toronto, suggested that the \$100,000 in the estimates for the San Francisco relief fund should be sent to San Francisco either to aid the afflicted or to Canadians who must be in need, since the United States had declined to accept the money.

Minister Fielding said in reply that while it would be possible for Canadians to send subscriptions direct to San Francisco, it would not be proper for the Canadian government to do so in view of the refusal of the American government.

He hoped, however, that some way would be found to overcome the obstacle.

At midnight the House, by unanimous vote, adopted the measure. It will be held, pending other developments.

UNION PACIFIC BUSINESS. OPERATIONS IN MARCH.

(BY DIRECT WIRE TO THE TIMES.)
BOSTON, May 1.—[Exclusive Dispatch.] The Union Pacific today reports March operations as follows: Gross earnings, \$3,064,913; expenses and taxes, \$2,008,977; net, \$2,155,936; increase gross earnings over March, 1905, \$27,111; increase net, \$43,223; gross earnings nine months, \$20,767,255; expenses and taxes, \$12,121,221; net, \$21,546,034; increased gross over corresponding period last year, \$4,140,887; increase net, \$2,000,123.

LUMBER TRADE
SHAKE-UP DUE.

(BY THE ASSOCIATED PRESS.—P.M.)
ST. LOUIS, May 1.—According to a report by Secretary Smith at today's session of the Lumber Manufacturers' Association, the destruction of San Francisco will cause a shake-up in the lumber trade which will turn large quantities of timber from its customary course and cause a readjustment, which will have an effect on the entire territory west of the Mississippi River.

to arrest him, was riding, was taken from the authorities Monday night, and hanged near the public road, about six miles west of Jackson. The mob, after hanging Simms, quickly dispersed. Hendricks, in whose charge the negro was at the time of the lynching, was en route with his prisoner to Jackson.

DISORDER IN THE SENATE.

Railroad Bill Amendments Cause Confusion.

Efforts to Prohibit the Roads from Mining Coal.

Army and Navy Measures in Lower House.

(BY THE ASSOCIATED PRESS.—P.M.)
WASHINGTON, May 1.—Aside from a few minutes devoted to the reception of the Allison amendments to the Railroad Rate Bill and half an hour given to routine business, the Senate devoted its entire session today to the ineffectual consideration of the Elkins amendment, prohibiting common carriers from engaging in mining coal or in the production of other commodities in competition with shippers, and adjourned at 5 o'clock p.m. in a state of great confusion as to the exact subject before it.

During the day the Senate decided the disputed point that under the agreement the chair can entertain a motion to lay on the table, or to postpone, or amendments to the original amendment were introduced.

ADVERTISING FACTS.

The growth of the Los Angeles Times has been sure and steady. Shrewd advertisers and the discriminating public will draw their own conclusions from the following figures:

The total amount of bona fide paid advertising printed in the Times for the months of January, February, March and April, 1906, was 19,607 columns.

As against 15,527 columns for the corresponding months, 1905. Gain 4,080 columns.

The advertising in the other five Los Angeles dailies for the months of January, February, March and April, 1906, combined amounted to 28,940 columns.

These figures show that the Los Angeles Times printed nearly 70 per cent. as much advertising as the other five city newspapers combined for the months named.

"Green-eyed" contemporaries are invited to sit up and take notice of the foregoing figures.

UNDER JUDGMENT IN BANKRUPTCY.

NEW DISCLOSURES MAY SHOW SPIER KILLED HIMSELF.

KIDNAP GIRL IN TOLUCA.

By Devilish Ruse She Is
Snatched Away.

In Red Auto She Is Taken.
Suspect Arrested.

Friends Fear Fate Worse
Than Death.

Miss Grace Crowe, aged 13 years, daughter of Mr. and Mrs. D. D. Crowe of Toluca, was kidnapped from her home yesterday afternoon by a man and two women, who appeared at the Crowe place in a red automobile. Mr. and Mrs. Crowe were both away from home, the latter being in this city. When the touring car stopped at the gate at about 3 o'clock Miss Crowe was alone at home and the only witness of her leaving were several small children who were attracted to the spot by the machine.

When the car stopped one of the women alighted and, going to the house, knocked on the door. After ascertaining that it was Miss Grace Crowe who answered the summons, she presented the young woman with a note which read thus:

"Grace: Mama is hurt very bad. I am here and these people will bring you here. Come quick. Papa."

FRIGHT FOR GIRL.

The note was written in pencil on a leaf torn from a small account book such as men sometimes carry in their pockets. The woman evidently told the girl that her mother was seriously injured, for Miss Crowe broke down completely and began to cry. The woman hurried her and just as the two were climbing into the tonneau of the automobile the curious children heard the woman say to the girl:

"Hurry up little girl and we will be there soon, but you know the will of God must be done."

In a cloud of dust the big auto disappeared down the road and since then nothing has been seen or heard of Miss Crowe by her family or friends. The children told Mrs. Crowe of the incident when she returned last evening and she informed her husband upon his arrival from work soon afterward. According to the children who witnessed the kidnapping, a man and a woman, both wearing automobile goggles, occupied the front seat of the machine, but the woman who carried the note wore no goggles. They could not furnish a good description of the kidnapers, however.

OFFICERS ARREST SUSPECT.

The case was immediately reported to the Sheriff's office and to the Los Angeles police. For some time an uncle of the girl, Joseph Lockard of Hollywood, has been paying her a great deal of attention and it is said has been trying to get her to run away with him. He was suspected of being the instigator in the case and was arrested last night and closely questioned by the police. He denied any knowledge of the affair, however. Sergeant of Police Dixon openly charged him with writing the note and he flatly denied the accusation, but the officers think that he knows something about the case.

They say he did not talk in a straightforward way when they were questioning him, and despite his plea of innocence, they are not yet convinced that he did not write the note by means of which the girl was lured away from home. There was not sufficient evidence to warrant holding the man, however, and so he was allowed to go free.

FEAR WORSE THAN DEATH.

The parents of the girl are prostrated with grief and fear that their daughter, unless rescued, will meet a fate worse than death. The police fear that the girl was kidnapped for the purpose of being forced into a life of shame and both county and city officers are hard at work on the case.

Miss Crowe is a very attractive girl, is of about medium height and weighs about 125 pounds. She has a clear white complexion which makes her look delicate, though she is said to be in good health. She has dark-brown eyes and heavy dark hair. Every effort will be made to locate her.

SUPPOSED DEAD TO SETTLE UP.

Defaulting Minnesota Official Coming Home from London to Reimburse Bondsmen.

(BY THE ASSOCIATED PRESS.—A.M.) CROOKSTON (Minn.) May 8.—News from a source considered thoroughly reliable has been received here to the effect that Joseph Matthews, who, as deputy treasurer of Polk county, defaulted to the extent of about \$600, and who was thought to have died in a London hotel in 1918, is alive and expects soon to return to Crookston to reimburse the bondsmen of County Treasurer Besudry, who settled with Polk county.

Matthews disappeared in 1918. A man was found dead in a London hotel. Matthews's watch and ring were found on the dead man, together with other papers. Now it is thought that Matthews was in London at the time and changed clothes with the dead man to confuse identification.

Mrs. Matthews collected \$5000 life insurance and has remarried.

QUESTS IN PERIL.

Wild Runaway Team in Riverside Almost Runs Down a Score of Them.

(BY DIRECT WIRE TO THE TIMES.) RIVERSIDE, May 8.—[Exclusive Dispatch.] For a moment today nearly two score guests of the Glenwood looked death in the face as a heavy work team, tearing along with a brick dray, bore down upon the light touring wagons in which they were seated. The work team belonged to Peter Schwab, the city contractor. It took fright on Seventh street and dashed toward the Glenwood. Cries of pedestrians on the street attracted the tourists' attention to the danger.

As the wild horses approached, by some instinct they averted so that a fatal collision was avoided by a hair's breadth. Several blocks beyond Paul Horton made a dying leap into the bed of the brick wagon, seized the reins and checked the panting horses without injury to stock or vehicle.

The runaway was one of the most sensational seen here in a long while.

OBITUARY.

DETROIT, May 8.—Alfred Russell, one of the prominent attorneys of Detroit, and formerly United States District Attorney for the Eastern District of Michigan, dropped dead of heart disease, tonight, at the Detroit Club, while making an address at the annual banquet of the Michigan Society of the Civil War. Russell was seventy-six years of age.

THE COMING BRILLIANT FIESTA.

THE special Fiesta Number of The Times will be issued the day following the close of the celebration, which is now definitely announced to begin on the 21st of this month. The Fiesta will be greater and grander than ever. Floats for the night parades, already completed, are the handsomest ever constructed for any fête in the United States, and entries for the floral parade are unusually numerous and promise to be really magnificent.

Citizens who have the interest of this great young city at heart will now put their shoulders to the wheel and make the forthcoming Fiesta de las Flores the grandest, the biggest and the best ever! It is a celebration that will redound to the credit of all Southern California and of its progressive citizens.

CZAR REVIVES OLD DISTRUST.

Autocrat Breaking Promises
to Russian People.

Bound to Have Clash When
Parliament Meets.

The Police Intensify Indignation
Already Aroused.

(BY THE ASSOCIATED PRESS.—A.M.)

ST. PETERSBURG, May 8.—The danger of an early conflict between the government and Parliament has been greatly increased by what has happened within the last twenty-four hours. The good impression produced by the official intimation of the new Premier that the Emperor and the government were sincerely desirous of working in harmony with Parliament, which was accepted in good faith by the leaders of the Constitutional Democrats, enabling them to counsel moderation, has largely been dissipated, and in its place the old feeling of distrust has been revived.

The Liberals are utterly dumfounded, in view of the semi-official assurances on the subject, by the unexpected promulgation in the last night of the obnoxious "fundamental law" in a slightly modified form. At one stroke, it put an end to the claim which the new Cabinet tried to foster—namely, that the downfall of the Witte Cabinet was due to imperial disapproval of the original draft of the law. An article in the law not mentioned in last night's dispatch—concerning lands from taxation and expropriation—and another, reserving the power of amnesty for political prisoners, run counter to the already-expressed will of the majority and are bound to produce a clash.

The only commendable new feature of the "fundamental law" is a provision to the effect that imperial orders must be countersigned by the president of the Council of Ministers or the member of the Cabinet whose department is affected. But so long as the Cabinet is not responsible to Parliament it is easy for the Emperor to dismiss an unwilling Minister and replace him by one who will do his bidding.

INDIGNATION INTENSIFIED.

The indignation aroused by the Emperor's attempt to build an artificial dike around the prerogative of the crown has been intensified by the astonishing action of the police last night in dispersing a meeting of some members of the Lower House of Parliament and of the Upper House, or new Council of the Empire, at the hall of the Economical Society. Without any warning, the building was surrounded by the Ismailovsky Guard and a detachment of cavalry and a hundred policemen marched into the hall, where Count Heyden, a Marshal of the nobility and a member of Parliament, was presiding and ordering the meeting to disperse, under instructions from the Chief of Police. In spite of vigorous protests that the meeting was entirely legal, under the regulations covering the society, the police captain who was in charge of the police and troops was incorable and the members of Parliament were compelled to yield to force and left the hall, after drawing up a formal protest, which was signed by twenty-eight members of Parliament.

Rodicheff, a member of Parliament for St. Petersburg, hurried after midnight to the hall where the Constitutional Democrats were holding their convention and announced to them the action taken by the police. An indescribable scene of fury followed, after which Rodicheff, in a speech which was cheered to the echo, declared that the government's appeal for confidence had again been false and that the people must rely upon themselves.

SOLENN RIGHTS WITHDRAWN.

Rodicheff presented a petition, in substance as follows: "On the eve of the meeting of Parliament, the government has hung down a new proposal to the people by the issue of the 'fundamental law' and by depriving their representatives of the right to revise it. The ruling bureaucracy resumed its ancient power, and Parliament, the center of the people's hopes, is shorn of the rights solemnly conferred upon it by the manifesto of October 30. The party of the People's Liberty and the members of Parliament see in this act an open and flagrant violation of the people's rights, and announce that no bureaucratic government can entice the people's representatives from accomplishing their duty." It was decided that one of the first things after the assembling of Parliament shall be a demand for the dismissal of the Chief of Police.

As if these incidents were not sufficient to excite the members of Parliament, the local authorities, with a fatuous genius for blundering, inflamed the working classes. Without warning, they ordered many of the leaders of the workmen to leave the city. They were not even given time to remove their families. The matter was brought to the attention of a meeting of 122 peasant workmen members of Parliament, who denounced at this critical juncture to do nothing rash and to trust to Parliament in the fight for liberty against repression.

APPOINT SCANDAL COMMITTEE.

This meeting also appointed a scandal committee to collect evidence of violations of the rules by members of Parliament, two of whom, one a priest, have been searched since their arrival in St. Petersburg, and also to investigate the conspiracy on the part of the members to induce members of Parliament to lodge in government buildings.

A mass meeting of the "Black Hundreds," held yesterday under the presidency of one Dubrovnik, poured oil on the flames by exhorting an oath from

IGNATIEFF NOT ASSASSINATED.

MARKED RUSSIAN IN ST. PETERSBURG NOT KIEFF.

Rumored in Moscow That Extradition
of Gorky from United States
May Be Asked for—Paper Containing
Photographs of Prison Life of
Mile Spiridonov Confiscated.

(BY THE ASSOCIATED PRESS.—P.M.)

ST. PETERSBURG, May 8.—There is no foundation in fact for the report telegraphed from Kieff today that Gen. Count Alexis Pavlovich Ignatieff had been assassinated. Gen. Ignatieff is in St. Petersburg tonight and not in Kieff.

MAY TRY TO GET GORKY.

(BY THE ASSOCIATED PRESS.—A.M.) MOSCOW, May 8.—In addition to the accusation against Maxim Gorky of engaging in a political propaganda, the Procurator charged him with par-

ticipating in the December uprising here and it is rumored that his extradition from the United States will be asked for.

The Gorky has been confiscated and prohibited from publishing pictures taken by an American photographer, showing the life led in prison by Mile Spiridonov, who killed Police Chief Luchenovskiy at Tamboff. She was sentenced to be hanged, but her sentence was commuted to twenty years' imprisonment after she had been most brutally treated by Cossack officers, one of whom was assassinated for so doing.

RUSSIA TO REORGANIZE NAVY.

ST. PETERSBURG, May 8.—In an imperial rescript to the Minister of Marine, indicating the necessity of a prompt reconstruction of the navy, Emperor Nicholas orders the reorganization of the General Staff of the Navy. The Technical Committee of the navy has decided in favor of the big ships and is now planning to construct battleships of 15,000 tons and carrying four 12-inch guns.

The Senate has confirmed the appointment of L. Webster as postmaster at Ventura.

**Two Million Little
Children Starving**

Poor and Rich Alike Suffer From
Lack of Good Food.

We notice that John Spargo, in his new book, "The Bitter Cry of the Children," says no less than two million American children between the ages of five and fourteen are victims of chronic underfeeding. They are the easy prey of disease, nervous, irritable, weakened both physically and mentally, and unfit for that perfect development which Nature intended for them.

Mr. Spargo speaks particularly of the children of the poor, but what he says is, in thousands of cases, true of the children of the wealthy and the comfortably well-to-do. Many children who have "all they can eat" are really under fed. For the food which they are given is not food from which they can get the nutrition they need.

There is no other food, so far as we know, so nutritious, so strengthening for children as Malta-Vita, the perfect whole-wheat food. This is not only because Malta-Vita is so rich in all the nutrition the body needs for sustaining health and strength. More important by far is the fact that the nutrition of the malted wheat is so easily digested and assimilated that all its life-giving elements are taken up by the system, forming rich, red blood in abundance and giving growth and vigor to the body and brain.

Malta-Vita is insurance of perfect health for children. And it is so good to eat!

All grocers

all present to the effect that if Parliament is found to consist of "traitors" they will offer their lives to protect the autocracy.

No better evidence of the feverish haste of the government to strengthen its defenses at all points before the assembling of Parliament could be given than the fact that twelve columns of the Official Messenger today are devoted to ukases and orders.

The Emperor has yielded to the demand of the Russian people of the Baltic provinces and Poland, where no elections have been held, granting two seats in Parliament to each. They will be selected from the purely Russian inhabitants. Thirteen members are also assigned to Central Asia, Samarkand, Russian Turkistan and Syr-Darya, Asiatic Russia, with the restriction that they elect one Cossack, six for the Ussuri, South Siberia, and Trans-Baikal provinces, and one for Yakutsk, East Siberia.

Count Ignatieff

Participating in the December uprising here and it is rumored that his extradition from the United States will be asked for.

It Takes Nerve

Everything depends on your nerves. It is nerve that causes the brain to direct the motion of your body; nerve force that causes heart to pulsate, and blood through your veins; is nerve force that causes stomach to digest food, kidneys to filter the blood, the liver to secrete bile.

In fact, nerve force is power that runs your body. If you feel worn-out, irritable, nervous, cannot sleep, or, well, have pain or anywhere, your nerves are weak, and your system is down. To restore this, take Dr. Miles' Nerve Tonic. It will strengthen and build the nerves. You cannot be healthy without strong nerves.

For eighteen years Dr. Miles' Nerve Tonic has been my close companion. Early in life, while raising children, I had no appetite, no sleep, and, in fact, no nerve. Then I began using Dr. Miles' Nerve Tonic, and at once I began to grow, and soon found my nerves healthy.

SEEKING AUTO BRINGS QUICK DEATH.

...caught the man between car and curb, and latest photograph of victim.

...and the driver must have known that passengers were alighting from the car. As soon as possible the auto was stopped and the names of its occupants secured.

Biroth was about 60 years of age and worked at tailoring at the home of his son-in-law, L. Johnson. He was returning home after delivering work to an uptown tailoring shop. He suffered from deafness, and did not hear the auto approach.

The accident carried with it more than the killing of Biroth, for his son-in-law, Johnson, is on the verge of collapse from shock. Johnson was in the San Francisco earthquake and fire, and when he returned here last week he was almost a mental and physical wreck. When he heard of the death of Biroth yesterday it upset him so that he was unable for a time to tell either his father-in-law's or his own name, and walked up and down the street almost stark mad.

Besides Mr. and Mrs. Johnson, the victim of the tragedy leaves one other daughter, Mrs. J. Johnson, who resides on East Forty-fifth street. He came here about three years ago from Chicago.

The police will investigate the case today.

Hotel Del Monte.
Announcement is officially made that damage from the earthquake is slight, and there is no interruption of business. Plan to spend a week or more. Variety of attractions and reasonable prices. Fully through car. Office, No. 22 South Spring street.

LOSS ON FINE MANSION.

Mrs. Singleton Declares Damage Will Amount to Not Less Than Fifty Thousand Dollars.

There is a wide discrepancy in the figures given by Chief Lips and Mrs. John Singleton, as to the loss sustained by the fire in the Singleton mansion early yesterday morning, and printed in yesterday's Times.

The record at the chief's office last night still showed the estimated loss to be \$5000 on the house and \$2000 on contents. Mrs. Singleton last night scouted the idea of such a trivial loss, saying that the house alone, with none of its rich contents, was insured for more than double that sum, and that the whole upper floor was burned out and the lower floors and all the contents seriously damaged by water and smoke.

"The loss on contents alone," she said, "is between \$25,000 and \$45,000. Every article removed from the house was damaged, there being scarcely a book in the fine library or a valuable picture that does not show marks of the fire. There were also fine lace and many other things of value that were damaged, and I am sure I do not put the loss too high when I say it is \$50,000."

The property where the fire occurred is the famous show place known as "Singleton Court," which is entered through Palm Drive from West Adams street, and is one of the few private places that has been open to the public, and many tourists were taken there to look it over. Mr. Singleton arrived home last night from his Yellow Aster mine and will probably go over the losses in detail today.

Large range, well lined; saved burners, 18-inch oven, guaranteed; this range is one of our best bargains offered.

"Makes me Bilious"

Is said of "green beer"—not of Schlitz.

Schlitz beer is aged in glass enameled steel tanks for months before it is marketed. Fermentation is finished long before you get it.

That is an apparent virtue. But the chief distinction of Schlitz is its purity—a virtue that you can't see. Yet the cost of that purity exceeds all other costs of our brewing.

Ask for the Brewery Bottling.
Common beer is sometimes substituted for Schlitz.
To avoid being imposed upon, see that the cork or crown is branded

TOWN CLAIMED BY "MINERS."

"LEDGE" STAKED OUT IN EARLY DAYS NOW FREE.

Much Valuable Realty in Danger, but Arizona Land Office Decides Against One Claimant, Followed by Similar Decision from Secretary of Interior—Other Realty Jeopardized.

(SPECIAL CORRESPONDENCE OF THE TIMES.) BISHOP (Ariz.) May 7.—A considerable part of the townsite of Bishop has been property values in jeopardy through the presence of a number of mining claims for which surface rights were demanded. It has been held generally that these claims were merely "hold-ups," inasmuch as no mineral of value has been found above what is practically the lower edge of the city. One of the most important of these claims was that of Martin O'Hare for the Mountain View property, which encompasses realty valued at about \$100,000, including some of the finest residences in the city. O'Hare claimed to have located this mine twenty years ago.

The Arizona Land Office decided against him on the ground that there were no valuable minerals upon the claim, and that the proper amount of assessment work had not been done. Appealed to the Commissioner of the General Land Office, the decision went against the city. Another appeal, to the Secretary of the Interior, has just been terminated by the royal intelligence that O'Hare loses.

O'Hare has still another claim pending, and Henry Winters has two or three of which more or less affect the settled portion of Bishop.

WEAVING THE WEB.

Sheriff George T. McNoble and Deputy T. Sibley of Stockton, Cal., have been in Tombstone and Bisbee for the last few days quietly gathering evidence for use in the prosecution of Mrs. Emma Le Doux, accused of the murder of A. N. McVicker, from whom she had been divorced shortly before McVicker was found dead in a trunk. It is claimed that the woman, for the purpose of getting possession of valuable furniture, administered an opiate to her former husband and then killed the unconscious man by beating him on the head. The body was sent from San Francisco in a trunk to the Southern Pacific depot at Stockton, where it was discovered.

The woman was arrested at her mother's home in Jackson county, Cal. She claims the murder was the work of an unnamed man, who cannot be found.

Local interest in the case attaches to the fact that Mrs. Le Doux-McVicker was formerly a Mrs. Williams in Bisbee. Williams died in rather a mysterious manner, his widow receiving \$2000 insurance money from the Workmen. Soon thereafter she left for California with McVicker, who was well known in this country.

EDITOR ARRESTED. William B. Kelly, editor of the Bisbee Review, was taken to Tombstone a few days ago, upon a charge of criminal libel preferred by Thomas D. Bennett, a local attorney. The editor had referred to an affidavit filed by the attorney as having been perjured.

Another matter which may have caused offense was an editorial reference to criticisms which had been passed by the court upon newspapers in general. The editor saying: "The court can find the condition of which he complains closer at home by reaching over his desk any day during the morning hour and cracking over the head with his judicial cane two or three irresponsible, bushwhacking affidavit-making lawyers." The indictment has been dismissed upon demurrer.

ATTEMPTED FLAM-FLAMMED. Two vaudeville singers from Chicago, styled the "Sherwood Sisters," arrived in Bisbee a few days ago, here to take a position in which they had been told was a regular theater, at \$10 a week. When they arrived they found they had signed to work practically as waitresses on the drinking tables of a disreputable resort, and that their salaries would come only through commissions on the drinks sold.

The young women will return to Chicago as soon as possible and will there proceed to collect damages from the booking agent who sought to lead them into evil.

CHARGED WITH REDUCTION. Frank Teby and T. M. Crosby have been jailed upon a charge of seduction. Two young women of excellent standing disappeared from their homes in Bisbee, without explanation, and were found the next day at Naco, where they said they were on their way to Cananea. The men arrested were not with them, but it is claimed they had arranged to meet them across the line.

FROM OVER THE TERRITORY. A. D. Kindred, aged 31, was killed last week at Douglas by falling into a pit of one of the large fly-wheel at the Copper Queen power works. The wheel threw the young man's body with terrific force against one of the large blower engines, his skull being fractured.

Late arrivals from Mexico have brought smallpox with them and as a result a quarantine station has been established and all cases of the disease are being carefully isolated.

The Cananea, Yaqui River & Pacific Railroad is being rebuilt, with heavier steel and a much improved roadbed. A large railroad camp has been established at Naco, between this point and Fairbanks it is believed the Southern Pacific will soon be laying a track.

The Bisbee lodge of Elks has awarded a contract for the construction of a new lodge hall, to cost \$12,000. The building will be of three stories, built of cement blocks and brick. In addition to the lodge room upon the third story, there will be regular club-rooms for the use of the members.

The new Copper Queen library building will cost about \$75,000. It will be of three stories. The first floor will be given over to the postoffice, the second and third floors to the reading rooms and library. Within a few days work will commence upon the demolition of the old library building, which has been one of the landmarks of the camp for many years.

A half-dozen large business blocks and many residences in course of construction have caused a famine building material in Bisbee, especially of brick.

At Douglas, a couple of days ago, there was a "determined" strike of about thirty men employed upon the foundation of the new First National Bank building. The result of the strike was that the men lost their jobs, and some other men went to work.

Country Club Park

THE location of Country Club Park is beautiful—healthful—strategic—right in the trend of Los Angeles' best residential growth.

Improvements are of the very highest type—space won't permit an adequate description of them here. "It is to see."

Bear in mind that "better Los Angeles" is extending west and southwest. Thinking buyers are alive to what this means from a home and investment standpoint.

Country Club Park is 20 minutes from Fourth and Broadway. It is bounded by Western Avenue, San Marino and Eighth Streets and the beautiful Country Club grounds.

Magnificent homes surround the tract on all sides.

Take Pico car—get off at Western Avenue.

Lots \$1250 to \$1800

One-fourth cash. Balance 6, 12 and 18 months.
Building Restrictions \$3500

TONOPAH GOLD STAR

MINES COMPANY 5 Cents a Share

The TONOPAH GOLD STAR MINES COMPANY'S property is situated in the inner circle of the richly mineralized district of Tonopah. It lies between the Ohio Tonopah and West Tonopah companies' claims. The Ohio Tonopah is to be merged with the West End and McNamara companies in the biggest combination in the camp. The same vein which traverses those properties runs through our property.

Our claims, the Kate McMahon and Urbana lode, were picked up at a lucky moment. They are owned outright. Our company has been incorporated under the laws of Arizona, and 500,000 shares of a par value of \$1 each are treasury stock. A limited amount, only 10,000 shares, are offered for public subscription at FIVE CENTS A SHARE.

This amount will be snatched up very quickly by investors who have looked for just such an opportunity as this to get into Tonopah. Tonopah is the proven camp. Follow Schwab and you will make no mistake. The older properties are too high-priced for the ordinary man's investment. But a new proposition in Tonopah of any merit is rare. Tonopah Gold Star, by its fortunate proximity to properties on which recently valuable strikes have been made, may either be developed separately or sold to the combines. Our purpose is to develop it. If this opportunity interests you, call and investigate. Every dollar that you subscribe will go into the development of the mine. Not a dollar goes to pay salaries, or for anything but legitimate development of the property. Don't lose sight of the fact that other investors in gold mining properties have made big money by having the nerve to buy in at the ground floor price, and thus share in all the profits which come from advances in value.

The same opportunities which have realized fortunes for others are now presented to you. A little money—whatever you can spare—will make you the possessor of certificates which reasonably should go to par, and in any event will be worth more than you pay for them, as this proposition is developed. Wire orders at our expense.

PACIFIC COAST MINES BUREAU

421-2 Chamber of Commerce,
LOS ANGELES. Sunset Broadway 4895

wound in his back was not serious, the knife blade having been deflected by a rib. In less than half an hour after the affray both Japs were under arrest and the man, who was found with a knife, the blade of which was still bloody and showed that it had been driven through a deal of force against bone. He was identified by Wetchemer as the man who had stabbed him.

WANTED IN THE EAST.

Gov. Pardee Asked to Issue Extradition Papers for Los Angeles Man Charged With Felony.

According to a press dispatch from Sacramento, application has been made to Gov. Pardee, for requisition papers authorizing the return under arrest of L. H. Wheeler of Los Angeles to Philadelphia. The application has been made by an officer from Pennsylvania who has a warrant for Wheeler, charging him with obtaining money by false pretenses. It is charged that through agents, Wheeler sold \$75,000 worth of mining stock in the city of Philadelphia. The stock, purporting to be of the San Joaquin Mining Company. This was done in 1903 and it is claimed that the agents represented that the ore in the mine was free milling with over a million dollars worth exposed and blocked out. It is now claimed that the stock was sold on false representations, as no such amount of pay ore was in sight. Wheeler has communicated with the Governor and has demanded examination before him before any papers for his return to Pennsylvania are considered. He claims that when the stock was sold he was not in the State of Pennsylvania, and in consequence, holds that the papers are not operative on that account alone.

BURIED ALIVE IN TUNNEL.

Laborer Caught Under Mass of Falling Earth Near Whittier and Instantly Killed.

(SPECIAL CORRESPONDENCE OF THE TIMES.) WHITTIER, May 8.—(Mitchell Bush, who was employed on the city water system, was killed this afternoon in a tunnel near the reservoir north of the city. With another workman he was engaged in widening the tunnel and had removed a quantity of earth. His companion was working behind him nearer the mouth of the tunnel. While Bush was stooping over a huge mass of earth and stones fell from the roof of the tunnel without warning, burying him completely. The other workman summoned assistance and as quickly as possible Bush was uncovered but he was dead when found. The unfortunate man was aged 45. He is survived by an invalid wife. The coroner has been notified and will hold an inquest tomorrow.

TANNER-GIEF EAST.

Commander-in-Chief Tanner of the Grand Army of the Republic, with his wife, departed last night for Salt Lake, where they will attend the Utah encampment of veterans. While in Los Angeles, Corporal and Mrs. Tanner have been guests at the home of Marshal H. Z. Osborne, No. 401 West Twenty-third street.

GAS FOR FUEL.

The handling of GAS fuel is so simple that it doesn't seem possible to those who have been used to spending thirty minutes building fires. Strike a match, turn a valve and the fire is ready.

NOTICE

Announcement to the Public
Our Fee \$12.50 Until June 1st

We will Treat any Single Uncomplicated Ailment
Under Absolute Guarantee.
No Pay Unless Cured

Our Special Offer. In view of there being so many afflicted with private, chronic and pelvic diseases who have treated with quick specialists and inexperienced physicians without receiving any benefit, we have decided to make a special offer to charge only one-half of our regular fee for curing those who are now undergoing treatment elsewhere and are dissatisfied, provided they come to us before June 1. For instance, if you are afflicted with either Hydrocele, Stricture or Nervous Decline, our charge for curing either of which, without any complication, is \$25.00, we will guarantee to cure you for \$12.50, and accept the money in any way you wish to pay. We will also cure Contagious Blood Poison for \$12.50, which is just half our regular fee. This liberal offer is made to enable those to be cured who have spent their money in doctoring without relief and to show the many who have treated with doctors of physicians without benefit that we have the only methods that produce a life-long cure.

Contracted Disorders

Every case of contracted disorders we treat is thoroughly cured. Our patients have no relapses. When we pronounce a case cured, there is not a particle of infection or inflammation remaining, and there is not the slightest danger that the disease will return in its original form or work its way into the general system. No contracted disease is so trivial as to warrant uncertain methods of treatment, and we specially solicit those cases that other doctors have been unable to cure.

Largest and Most Reliable Place in the City

MEN

No Mail Treatment Nor Home Treatment

It may seem impossible for you to come to Los Angeles and place yourself under my personal care for the short time necessary to CURE YOU, BUT THE BEST IS ALWAYS THE CHEAPEST and the results will worth your time.

Varicocele Cured 4 to 6 Days

Many men suffer from varicocele and have many times treated without satisfactory results. I want to say to all such that my treatment personally applied will cure you in 4 to 6 days, and the cure will be permanent.

Functional Decline Contracted Disorders

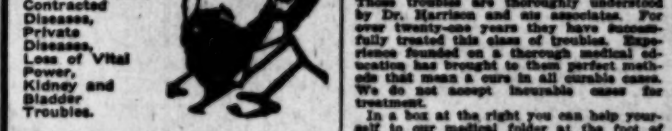

Termed Weakness by Some. The success I have had in restoring functional derangement has been a great surprise to many who have met with failure in former treatment. It is the right treatment applied in the right way that brings the satisfactory results. By my direct method all inflammation is removed and free, healthy circulation is established.

HOURS—9 to 4, 7 to 9, Sundays, 9 to 12.

THE CITY IN BRIEF.

NEWS AND BUSINESS.

Orphans' Home Reception.
A reception will be held by the children and directors of the Los Angeles Orphans' Home on Friday afternoon from 1 to 5 o'clock, at which the general public may consider itself invited. The home is at the corner of Alpine and Yale streets.

Franklin Association.
The Franklin Association held its monthly banquet at Levy's last night, at which fifty-five members sat down. Charles Alkire, president of the association, acted as master of ceremonies, and about a dozen of those seated at the table made brief talks.

Where is the Picture?
The owner of the fine picture donated to the recent "Tete champetre" at Hollywood and disposed of for the benefit of the northern sufferers, has not yet called for it, and the secretary, Miss E. Augusta Lamb, does not know his or her name. The number is 109.

Credit Men's Banquet.
"Fire Insurance" was the subject of an address delivered last night by W. D. Craig, before the monthly meeting of the Credit Men's Association in Levy's. Plans had been laid for a party, but a lively discussion ensued following the excellent menu, on the effect of the San Francisco disaster upon fire insurance.

Bank Burglary.
Daylight burglars broke into the home of Mrs. D. Mery, No. 241 Wilcox avenue, Hollywood, yesterday afternoon and secured a child's savings bank containing \$250. No one was at home. The burglars ransacked the house. Two negroes who were seen loitering about the neighborhood are under suspicion.

Steamer to Mexico.
The Pacific Coast Steamship Company's steamer Curacao sailed from San Francisco last night, bound for ports on the west coast of Mexico. This vessel will stop at San Pedro tomorrow morning, to receive shipments from Los Angeles for Mexico, and Freight Agent Parish says these shipments will amount to about one hundred tons. It appears that unsatisfactory adjustment of freight rates from this city to the Mexican ports is responsible for the failure of Los Angeles merchants to make a more energetic effort to supply the southern territory with goods during the enforced suspension of business by San Francisco houses that have controlled this trade for many years.

Employment Man Arrested.
E. H. Crowley, proprietor of Crowley's Labor Bureau, was arrested yesterday on the charge of battery, a patron claiming that Crowley attacked him with a chair. He gave bail for appearance on the first legal business day, and says he will prove that he made no attack. Twenty-nine men engaged by Crowley to receive orders from a tractor at Tonopah and Las Vegas went to the office of the city prosecutor to complain that they had been swindled, in that they had each paid Crowley \$4.35 and been given no jobs. From the prosecutor's office they went back to Crowley, and the trouble occurred. He states that the men were to have been sent a day later than originally contracted, and had no reason to complain. Their fees were refunded last night.

Wiggins Was Caught.
Frank Wiggins was caught in a trap yesterday morning by Principal Francis of the Polytechnic High School. Accompanied by Mrs. Wiggins, the imperial potentate of promoters paid a visit to the grounds and buildings. Wiggins, when entering the auditorium Mr. Francis remarked that he would call the pupils in and have Mr. Wiggins address himself to them for a few minutes. But as the secretary hates speech-making almost as much as does Albert Kinney, he not only demurred, but kept clear of the auditorium building altogether. As Mr. and Mrs. Wiggins, named Francis, were quietly turned in a fire alarm, and the young people, marshalling in ranks before the podium, soon numbered 100. Mr. Francis then introduced Mr. Wiggins without ceremony, before the latter had time to comprehend the strategy.

Blind Singers' Anniversary.
A pleasant surprise was given Mr. and Mrs. W. V. Baker, the blind singers, yesterday, on the twenty-second anniversary of their marriage. They are living at "The Elk" on South Grand avenue, and when it became known that the day was the anniversary of their marriage, the guests collected among themselves a purse of \$4 and presented it to the happy couple during the dinner hour. Mr. and Mrs. Baker are natives of Philadelphia, from which city they have gone out on singing parties all over the country. In 1904 they went to London where they spent two years with Leonard Weaver, Ira D. Sankey and other evangelists. A year or so since they came to Los Angeles to make their permanent home, and have become well known here for the sweet voices of their sons and the remarkable cheerfulness of their disposition. They have sung at many revivals and on other public occasions in this city.

BREVITIES.

Will check business at your residence to any point. Tel. M. 23 or 29. Home 23.

MENTHOL, Crown Syrup, Best for Irritating throat coughs. All San Diego stores.

COLD FACTS.

1. Los Angeles is more than 400 miles away from the scene of the disturbance which has laid San Francisco in ruins, partly by earthquake shock, but chiefly by fire. Only a slight tremor was felt in Los Angeles.

2. In all the history of Southern California, extending back to the days of the Franciscan Fathers, about a century and a half, there has not been a serious earthquake in this region.

3. Los Angeles and the country around about, within a radius of one hundred miles, while it has experienced some slight "tremors," has never had, within the knowledge of man, an earthquake shock strong enough to do any damage worth mentioning; hardly enough, in point of fact, "to move a brick" (unless, indeed, the brick were just ready to be toppled over.)

4. In the entire history of California, (and that of the whole Pacific Coast), down to the day of the San Francisco catastrophe, less injury to property and less loss of life has been inflicted by earthquake than has often been caused by a single tornado in one of the Eastern States. And most of the damage in San Francisco was caused by fire, as noted above.

5. A disaster similar to that of San Francisco may never occur again in any part of the United States. It is as liable to occur in Boston, or New York, or Philadelphia, as on the Pacific Coast.

6. Far from being shaken or damaged by the San Francisco earthquake, Los Angeles was the first to send relief to the smitten city, sending carload after carload of supplies and thousands of dollars in money on the very day of the disaster.

(Readers of The Times wishing copies of the above statement to send East may obtain lists at any number at The Times office.)

ORPHANS FIND HOMES.

Annual Meeting of Children's Home Society Shows Many Boys and Girls Permanently Placed.

The annual meeting of the Children's Home Society was held yesterday afternoon at the institution, No. 901 East Twenty-fifth street. The reports of officers showed that the year in the history of the organization. During the year there have been 124 children received into the home, and of this number thirty-one have been received for the first time. Eighty-eight children have been permanently placed in families, and twenty have been retained. Fifteen remained in the home at the close of the year. The average number of children in the home, during the past month has been twenty, and these range from the age of twelve years down to infants. All bills have been paid, and there is a small surplus in the treasury. The old board of directors was re-elected, as follows: J. H. Woods, Z. L. Parmelee, A. J. Haham, A. J. Haham, Dr. Francis P. Kellogg, Julius A. Brown, T. M. Stewart and J. W. Eddy, all of Los Angeles, and William H. Burdick of Orange.

STAG?

Wear a Brauer-Krohn Coat or Tuxedo. You can properly be over-patented leather shoe with patent lace, or patent leather tie, and under either a Derby or Alpine hat. Your gloves can be either gray suede or tan. See that you are in a Brauer-Krohn Tuxedo when you get there. Your expense of about \$100 in the final embrace of a light double-breasted or single-breasted waistcoat to match coat. Either plain or pleated white shirt with attached or detached link cuffs is the thing. The real well-dressed man restores his jewelry to Roman gold studs and links and silk bow tie. Let your suit be a wing or high band turn down, with black silk or black satin tie. Don't even be caught at a stag dog fight with a WHITE BOW TIE on.

EBELL NEVER HAD ELECTION.

CLUB WOMEN FIND ALL VOTES HAVE BEEN VOID.

Discover That There is no Provision in Their Bylaws for a Quorum and That It Takes a Majority to Elect—Bylaws Amended and New Election Called.

The Ebelle Club has just discovered that it has never had a legal election. What is to become of all the past presidents and officers, since they never have been really elected? Are their titles to be taken away from them, or is the Ebelle Club to begin all over again?

These are not the questions that worried the ladies when they held their last business meeting. Monday had been set as the day for the election of a president. Some time ago the Ebelle women met—sixty-five of them—and tried to name a president, but failed somehow. They nominated Mrs. W. F. Pless and Mrs. P. Gengembre Hubert and Mrs. Florence C. Porter and Mrs. E. T. Pettigrew.

Mrs. Pless had sworn not to run unless she could be unanimously elected, and Mrs. Hubert, it seems, had promised to nominate and support her dear friend, Mrs. Pettigrew. Well, Mrs. Porter withdrew, and then Mrs. Hubert arose and nominated Mrs. Pettigrew, just as she had promised to do, and also withdrew her own name. That is, she thought she had. But some seemed to misunderstand, and did not quite know whether she had or not.

ELECTION VOID. At any rate, just at that juncture Mrs. Hubert went into the ante-room of the clubhouse and fainted. Mrs. Pettigrew, in the meantime, withdrew, and then the sixty-five voters promptly cast their ballots for the two left, Mrs. Hubert and Mrs. Pless. Mrs. Hubert won by a half dozen votes. When she "came too" she refused to take the office, as it all seemed to be a misunderstanding, and, anyway, some one said sixty-five members couldn't possibly elect a president for a club of 700 members. Some wished to rush the election through, but others said "no."

Then the members began to examine their book of bylaws and high-laws, and discovered that they had no law as to how many should constitute a quorum at a business meeting.

Will try again. Monday the members devoted themselves to their business meeting to re-making their laws. They made a law that one hundred shall constitute a quorum. The first Monday in June these amiable ladies will again try to decide who shall be their future presiding officer.

Mrs. Hubert has a strong following, and, on the other hand, a large number would like Mrs. Florence C. Porter. Mrs. Porter will probably not run, however, as Mrs. Hubert seems to be the popular choice. Mrs. Pless would not accept the office under any consideration, as she feels she was done an injustice, since she refused to have her name run against any one else in the first place. It was against her wish that it was done.

The meeting of the Ebelle in June promises to be interesting. These ladies are always quiet and dignified in their dealings, and there has been more excitement in their circles than ever before over this election. Still, the feeling seems to be good among them all.

GRAND AVENUE SALE. Corner Home at Twenty-first Street for Thirteen Thousand Five Hundred Dollars.

Charles F. Patterson & Company report the sale of a lot 50x120 feet on the corner of Grand avenue and Twenty-first street, improved with a 5000 ten-room home and cottage on rear of the lot for \$13,500. Lewis Richbort et al. sold this to Cora E. Freeze et al.

Sales by H. G. Cooper & Co.: Charles G. Willis to Henry Timmerman, lot 11, block 56, Peck subdivision San Pedro Harbor, 40x100 feet, an eight-room house, \$7000.

S. A. Taylor to G. B. Goldberg, five-room cottage, 550 West Forty-second street; price, \$2400.

Pettilis and Sloan to Belle L. Saurfelt, seven-room bungalow, 2327 La Salle, for \$4500.

N. Friedman to Leon Currel, lot 25x140 feet, in Salt Lake Depot Tract, for \$750.

Ellen Maitland and Rose A. Davis to W. S. Marshall and others, lot 50x135 feet, in Potter's Woodlawn Addition, for \$7000.

Mrs. M. S. Parratt to Minnie E. Ward, five-room cottage, 1120 Crocker street, for \$2350.

Mrs. E. M. Short to Thomas Gertrude, lot 61, 50x125 feet, Golf Park Terrace, for \$1225.

ACCIDENTAL DEATHS. Coroner Holds Inquests on the Bodies of Men Killed in Railroad Accidents.

Yesterday was one of Coroner Trout's busy days. He had four inquests on his hands, and a man was killed by an automobile while he was engaged in holding one of the four, at Pierce Brothers morgue.

In the case of P. C. Martin, the motorist on the Pacific Electric road, who was killed by falling under his own car, the verdict was simply accidental death, accompanied by the circumstances as given in The Times yesterday.

Martin saw that he was about to strike a cow which was on the track, and after throwing of the poyot, jumped from his car, when he fell under the car and was crushed.

The verdict in the case of Peter Kenting, a lineman, was also to the effect that it was accidental, but was accompanied by stricture on the carelessness of the man himself. He was working in a trench by the side of the road, and if he got down into the trench when the car approached he put his head up again before the car passed and was instantly killed.

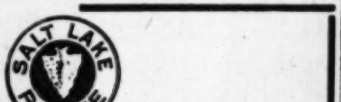

In the case of Mrs. Fannie Jacobson,

A Reply to J. Ogden Armour

You have read of Russell's story of how the Beef Trust fixes prices on the food supply of the country—about the "Yellow Car" and the secret rebates.

Now we have the story of "The Condemned Meat Industry in Chicago," by Up-ton Sinclair, author of "The Jungle," in which the ruthless and unscrupulous methods of the Beef Trust are laid bare. Read it.

who was discovered dead in her room at No. 639 South Main street, a verdict of accidental death was rendered. It was shown that when the woman took the room she made inquiries how to handle the gas, saying that she had never lived where gas was used, and all the circumstances pointed toward her having either blown the gas out or after having turned it off, turned it partly on again in her anxiety to be sure that she had fixed it just right.

An inquest was not held in the case of J. Morris, who dropped dead on the street on Monday. It is hoped something may be learned as to his identity.

ON THE LAST THIRD. Campaign for Building Fund Enters the Last Lap of the Race on Schedule Time.

With twelve days yet ahead of it, the campaign committee of the Young Men's Christian Association finds itself with but one-third of the minimum sum yet to raise, the other two-thirds having been subscribed at the rate required to finish the canvass in the given time—about \$10,000 a day. The status of the fund last night was as follows: Previously reported, \$28,175; letter canvass (small amounts), \$688; Keystone Iron Works, \$150; Roy R. Sumner, \$100; Will H. Wallace, \$100; T. A. Ashbridge, \$100; William R. Staats, \$100; Lee A. McConnell, \$100; E. J. Brent, \$100; E. J. Yawter, \$100; Praeger & Krohn, \$100; Dr. C. A. Sewell, \$50; Dr. C. H. Seward, \$50; J. B. Alexander, \$50; J. P. Miller, \$50; Theodore Todd, \$50; James Cunniff, \$50; Bourne & Hamilton, \$50; Thomas Higgins, \$50; Frank A. Gable, \$50; P. A. Howard, \$50. Total, \$231,623. A minimum amount still to be raised, \$118,377.

SORRY FOR THE BIRDS? Twenty-one women attended the annual meeting of the Society for the Prevention of Cruelty to Animals yesterday. There were red-hot speeches by the women on the sufferings of dumb animals, and they expressed sorrow for the overchecked horse and the overloaded mule, et cetera. But a glance over the company showed that ten of the twenty-one women present, ten had feathers, wings, birds' breasts, and in two cases full-sized birds, resting snugly on their laps.

High-Grade Furniture Reduced

During the entire week very substantial price reductions will be made in all departments, covering every article of home or office furniture. Our stock is composed of carefully selected, reliable merchandise, every piece a good value at its regular price and a bargain in the real sense of the word at the present selling figure.

Great Reductions in Our Drapery Department

Every yard of piece goods, all lace curtains, portieres, etc., have been much reduced. We carry an enormous drapery stock, including all weaves from the handsome imported tapestries to the simple cotton summer hangings, each piece a work of art in design and coloring, while many patterns are handled by us exclusively in this vicinity. Pattern lengths and remnant have been reduced far below cost.

HALF A MILLION ASKED OF CONGRESS.

The President Sends in Secretary Taft's Recommendations For an Increase of Relief to San Francisco Through Gen. Greely.

(BY THE ASSOCIATED PRESS—P.M.)
WASHINGTON, May 8.—The President today transmitted to Congress a letter from Secretary Taft, recommending the appropriation of an additional \$500,000 to meet conditions at San Francisco. The President's letter of transmittal to the Senate and House follows:
"I herewith transmit a letter from the Secretary of War in respect to the situation at the army supplies at San Francisco. The letter contains an appendix showing the supplies which have been transmitted to San Francisco, and their cost, and sets forth the necessity for an additional appropriation of \$500,000, which I recommend be made at once."
[Signed] "THEODORE ROOSEVELT."
Secretary Taft's letter shows that of the \$2,500,000 appropriated for the relief of San Francisco, \$2,450,000 has been expended, or contracts have been made which will consume that sum. The expenditures are divided among the various departments as follows: Quartermaster's Department, \$1,741,000; Subsistence Department, \$239,485; Medical Department, \$204,539; Signal Corps, \$15,000; for mileage, \$14,695. Estimates were given of the cost of returning troops from San Francisco to the stations where they are on duty, and the letter also gives transportation charges on all supplies and estimates for replacing supplies taken from army posts for use in San Francisco.

TAFT'S RECOMMENDATIONS.
Secretary Taft's letter concludes with the following recommendations: "Gen. Greely has recommended that \$500,000 in the hands of the Chief Quartermaster and Chief Commissary at San Francisco be expended for the purchase of further supplies. I have authorized this expenditure on the statement of Gen. Greely that of the quartermaster's supplies already sent to San Francisco, more than \$300,000 will not be used, but may be returned to the general stores of the army. It is quite probable, however, from Gen. Greely's statement, that a larger sum will be needed in San Francisco for the purpose of continuing the purchase of supplies, and I therefore recommend that Congress be applied to for to make an additional appropriation of \$500,000."

Marconi Wireless

Now Earning Money Every Day and Hour

The English Marconi Company, brought out earlier than the American Marconi Company, earned 7 per cent. last year, a remarkable showing for so young a concern. The American Company has many advantages, with a larger territory and a more rapidly growing constituency. Its earnings should be far greater.

The Marconi System is now in daily operation between both sides of the Atlantic, and is installed on all Trans-Atlantic passenger steamships and most of the war vessels at sea.

The Officers and Directors of the MARCONI WIRELESS TELEGRAPH COMPANY OF AMERICA are of the highest business standing. Its arrangements with the Western Union and Postal Telegraph Companies give it the use of over 30,000 offices throughout the United States and Canada, so that messages can be sent and received in every town and hamlet.

One Hundred Dollars recently invested in Bell Telephone now represents \$200.00 in value.

Marconi Wireless is a greater monopoly than the Bell Telephone, and is now to the ocean what the Bell Telephone is on land.

Now is the time to buy Marconi Securities. Tomorrow may be too late. A big demand and an advance in price are at hand.

Invest before the next great rise in these Securities and reap the benefit. For full information concerning the wonderful Marconi System and for a free illustrated pamphlet and copy of the latest edition of the Marconi Wireless News, address, without delay, as below:

WANT EVERY GOOD THING.

Including Factories, in Their Proper Places.

Los Angeles Should Welcome Business Enterprise.

But Inventor Luitwieler Is Not Encouraged.

Does Los Angeles want manufacturing? If a carefully-taken census of the people were available it would be found that more than 99 per cent. of the inhabitants of the city, including all classes of business men, would answer the above question emphatically in the affirmative. Los Angeles wants every good thing to be had. We have the climate here. That is no credit to us. It is the inevitable gift of God. We have a fertile soil, another gift from the same Almighty Hand. We have the tourist business, one of the most profitable enjoyed by any city on earth.

This is partly of our own building, but largely the direct result of the climate and the beauty of the country. Without the climate and landscape attractions, we could never have built this industry of our own effort. Los Angeles and its environs are and always will be a section of exceedingly high-class residences. The most intelligent and artistic people in the world are seeking this as their permanent place of abode. But Los Angeles wants more than climate, more than rich crops, and more than tourists. The people of this city want manufacturing industries and commerce in the largest measure that it is possible to secure, even although by the most strenuous effort.

There is a place for everything and everything ought to be in its place. The residents of Los Angeles are not content with the smokestacks belching out smoke in those parts of the city. Neither does any manufacturer want to invade these residence precincts with his shops. But surely between the railway depots all the way down to San Pedro and Wilmington there is plenty of area for the establishment of any kind of manufacturing industry without creating any nuisance in the most select residence districts of the city.

NEW MACHINERY.
One of the old-time doers of things in Los Angeles is S. W. Luitwieler. He has spent all the valuable active years of his life in honest and successful endeavor, in building up a large industry in the city of Los Angeles. He is an inventor with a real genius for creating new types of machinery. His time and attention have been given for the most part to the creating of new and most effective types of pumps, water engines is what they more properly ought to be called.

His latest improved engine of this type is something heretofore unknown in this line of machinery. By a series of compensating cams, or eccentrics, he has produced a pump in which by a twin action of these counterbalancing eccentrics there is a perfectly steady stream of water maintained at any desired pressure. The ordinary pump is so worked that the piston is at the end of its stroke and goes back to begin anew. If it is a double-acting piston there is a momentary stop at each end. These momentary stops are of double-action piston pump a momentary cessation of productive action, a waste of power and the loss of effort. The new pump invented by Luitwieler has eliminated absolutely these defects of action. To a Times reporter who visited his establishment, this inventor and manufacturer of water engines showed letters from almost all parts of the known world, ordering machines or expressing the highest satisfaction with their action.

WANTS TO COME HERE.
Now here comes the question in the most practical form, does Los Angeles want manufacturing or not? The cams on the Luitwieler pump have to be manufactured at a foundry where car wheels are made, for the reason that they are of a similar metal; that is, very hard chilled iron. A good deal of what is known as hollow steel shafting is used in the manufacture of these pumps, and that has to come from an eastern steel mill. The freight on these parts of the machine is excessively heavy, and yet, because this machine is unique of its kind and more effective than any similar engine, it enables its maker to earn a good profit on every machine he turns out.

But as a very large part of his business comes from east of the Missouri River, through an agent sent East, arrangements have been made to establish a large plant at Chattanooga, Tenn., for the manufacture of these water engines. The iron ore is at the door of the factory, so to speak, in Chattanooga. A carload of the ore can be converted into a machine which will be worth when finished from \$1000 to \$1500. Everything is done on the spot. The heavy cost of freight on the parts of the machine shipped from the East here and the heavy cost on the machines sent east are saved. In this way the general public gets a machine east of the Missouri River at perhaps two-thirds of what it would cost if made in Los Angeles and the manufacturer earns a larger profit.

But S. W. Luitwieler is very desirous of establishing a somewhat similar plant near Los Angeles in order to continue the manufacture of his engines here to supply the demand up and down the Pacific Coast and in Australia and New Zealand. He states that it would require a capital of about \$100,000 to establish such a plant as would suffice to supply his trade. This factory would employ about 250 highly skilled mechanics every day in the year. Wages here for such labor are about thirty per cent. higher than at Chattanooga. In spite of this increased cost of labor and of the cost of freight on the parts of the machine from the East to Los Angeles, yet there would be so much saved on the freight on the entire machine, where sold on the Pacific Coast, that it would pay handsomely to have such a plant established here in Los Angeles.

A FINE LOCATION.
Now if the people of this city were interviewed about this matter, 99 per cent. of them would declare that it would be a good thing for the city. But while this is so, Mr. Luitwieler finds himself very much discouraged in his efforts to establish such a plant. His purpose is to go away south of the city to Asot Park or some such locality where certainly his factory would be in every way an advantage to that part of the community and a disturbance to none.

He tried to interest the Committee of Manufacturers for the Chamber of Commerce, but states that after some weeks of effort he has been unable through the chairman of that committee even to get the committee together. He showed a letter from R. H. Heron, chairman of that committee, in which the writer stated explicitly that he had been unable to get his committee together to discuss the matter. Surely that is discouraging enough.

RHEUMATISM CURED

The Disease Yielded Readily to Dr. Williams' Pink Pills After Other Treatment Failed.

Dr. Williams' Pink Pills cure rheumatism because they supply the necessary elements to the vitiated blood and enable nature to cast out the impurities and effect a cure. Mrs. A. Baker, of No. 119 Fifth street, Syracuse, N. Y., will furnish living evidence of the truth of this statement. "There has been rheumatism in my family ever since I can remember," she says. "My grandmother was a great sufferer from muscular rheumatism and my mother also had the disease in a mild form. About a year ago I had a hard cold and rheumatism caught me in my left knee. There were sharp pains, confined to the neighborhood of the knee and they seemed to go right into the bone. The pain suffered was intense and I also had dizzy spells. "The doctors called my trouble 'rheumatic sciatic rheumatism.' When I didn't get better under their treatment my brother-in-law suggested that I try Dr. Williams' Pink Pills. I bought three boxes, and, by the time I had taken them, the pain and dizziness had entirely left me. I wanted to make sure of a cure so I bought three more boxes, but I didn't take quite all of them as I found that I was entirely cured. "Before I took the pills the pain was so severe that I had to cry at times and when I was cured I was so thankful and grateful and I am glad to recommend them to every one who suffers with rheumatism."

Dr. Williams' Pink Pills have cured severe cases of anemia, sciatica, nervousness, partial paralysis, locomotor ataxia and St. Vitus' dance that have not responded to other modes of treatment. All druggists sell Dr. Williams' Pink Pills or they will be sent by mail, postpaid, on receipt of price, 50 cents per box, six boxes for \$2.50, by Dr. Williams Medicine Co., Schenectady, N. Y.

But it is not the worst. Mr. Luitwieler states that in discussing the matter with two or three of the directors of the Chamber of Commerce, among them F. Q. Story, after a somewhat hurried and whispered discussion of the matter, these directors of the Chamber of Commerce said in substance as follows: "We want to go very slowly about this matter of establishing manufacturing plants in the city of Los Angeles. This is a city of high-class homes and it is a serious question whether or not we want to encourage manufacturing plants."

FACTORIES NEEDED.
Now it would seem that some mistake or misunderstanding has been made here. Surely the directors of the Chamber of Commerce entertain no such views. It seems incredible that any one of them should be so far behind the times as to hesitate for a moment to encourage in every practicable way the establishment of so useful a factory as the one proposed by Mr. Luitwieler. If there is any director of the Chamber of Commerce who still entertains these rather antiquated views, he is certainly very lonely in his opinion among the mass of the inhabitants of the city of Los Angeles.

Emphatically this city wishes to secure the establishment of every such factory as Luitwieler proposes, provided always that there is no profit in producing machines such as the Luitwieler water engine. The maker of these engines is exceedingly perfectly satisfied with their face seem to be unquestionably conclusive that there is a profit in it. He has endeavored to enlist capital through a number of his friends and he showed the reporter several letters in which these persons stated that men with large means in and about the city all declined to be interested in the subject in any way. They said there was more money in real estate than in manufacturing.

SHORT-SIGHTED VIEW.
Now this, although possibly momentarily true, is a very short-sighted view to take of the matter. We can't all live on climate. We must have all classes of people to make up a great community such as Los Angeles is ambitious to become. The value of real estate is based upon its usefulness. While the foothills may have a unique value for residence purposes because of their climate and the beauty of their landscape, and while other lands may derive an intrinsic value because they are suitable for orange groves, yet there are stretches of country below the city, as pointed out above, where a city lot devoted to a manufacturing plant like that of Mr. Luitwieler will be of greater value than five acres of it used for growing alfalfa.

The subject is a very important one. The Chamber of Commerce is composed of very energetic, far-sighted and public-spirited men. They have done much in the past for the upbuilding of this city, and they will do much in the future. This subject of manufacturing has engrossed attention of the members of the Chamber of Commerce to a very large extent. Surely they will not lose their interest in this important branch of our development, nor will the view prevail that there is no place here for plants such as S. W. Luitwieler wishes to establish.

GREAT FREIGHT DEPOT.
The new freight depot of the Santa Fe, upon which work has just begun on the company's property south of First street, promises to be one of the best equipped structures of its kind in the country.

There are a multitude of handy contrivances which will be installed to reduce the cost and trouble of handling freight to a minimum. There will be an automatic arrangement by which the moving of two levers will open or close half a mile of pivoted transom windows. There will be twenty-four standard depot platform scales installed, and two large freight elevators equipped with automatic gates. The building will be fitted with a watchman's time detector system, an automatic sprinkler system, and a vacuum cleaning system. It will be heated by steam and lighted by electricity. It will be fireproof throughout, and in its complete appointments is said not to be equalled by any other freight depot in the world.

One of the thoughtful little features shown in the drafting of the plans by Harrison Albright, the architect, was the provision for large locker room and social hall for the freight handlers.

Rugs, Modern and Antique.
Because many antiques are admirable is no reason for denying the merit of modern rugs. There are more rugs of high quality being woven today than ever before, and this is due principally to the fact that there is a demand for them than ever before. The United States alone imports \$4,000,000 worth a year—about two and a half millions before the duty is paid. No wonder that the show of Persia nurtures the rug-weaving industry tenderly, bestowing orders and honorable rewards on successful rug merchants and inflicting the most severe penalties for the use of aniline dyes or anything calculated to bring Persian rugs into disrepute. (Country Life in America.)

NERVOUS WOMEN.
Take Horsford's Acid Phosphate. It quiets the nerves, relieves nervousness and induces refreshing sleep.

ON SALE ONLY FROM 8 TO 10.
